What We Do:	We will integrate your provided pictures and logo into the website. We will then set up your first 10 products to get your going.	The template is custom tailored to your color and layout specifications. We will integrate all of your provided pictures, content, logo into a turnkey website that is usually ready within 10 business days.	We will develop a completely custom site, based on your specifications. All custom sites come with advance features such as rotating images, photo gallery, contact form, 20 items. A detailed survey process will be assessed to accurately gather your thoughts and opinions on the website. This allows for any advanced feature that your website may need.
Special Notes:	If you don't have a logo, then 1 revision of a text based logo will be made. The style of the logo will compliment the look and feel of the website. Content is up to you and development time is extended because of that	If you don't have a logo, then 1 revision of a text based logo will be made. The style of the logo will compliment the look and feel of the website.	Pricing is solely depended on the features and functionality of the site. This package is for those businesses/practices that are looking for a complete branding/ marketing strategy on their website.
Package Differences:	Limited Customization	Allows for custom coloring and minor layout changes to any template. You will have the opportunity to approve or deny the design style.	Since this is custom designed site, any advanced features can be added.
